Though endowed with the most pure snow and beautiful snowscape in the world, the Snow Town was not known to the outside world until it was discovered by some shutterbugs and their photos won the international price in several years ago. They added more mystery to the farm. China's Snow Town is regarded as a dreamlike paradise in winter. Its high mountains, local traditional wooden houses, animals, trees and the sunrise are all greatly different from those in the other world's snowy areas. It is a very famous eco-tourist winter attraction connected to the Harbin International Ice and Snow Festival.

The **Harbin Ice and Snow World** is one of the largest ice and snow theme parks in the world, with an area of 600,000 square meters. It is also the irreplaceable landmark of Harbin City and world-known ice and snow tourism brand. It features more than 2,000 ice sculptures, landscapes, ice castles, rides and stage shows. It is literally a man-made winter fairyland. It is seen as "Disneyland of Ice and Snow".

Harbin Sun Island International Snow Sculpture Art Expo is the birthplace and leader of the international snow sculpture art. Together with Harbin Ice and Snow World, Zhaolin Park Harbin Ice Lantern Fair, and Harbin Songhua River Ice and Snow Carnival, it is known as one of the most important theme parks of the Harbin International Ice and Snow Sculpture Festival. Due to its long exhibition period (60-70 days), high quality, various cultural themes, large scale and interesting activities, the expo is also known as "the world's largest ice and snow carnival".

The Volga Manor is a theme park in Harbin, a Chinese city in Heilongjiang Province with strong Russian influence. Named after the Volga River, one of the best known rivers in Russia, the park features Russian architecture, arts and cuisine. The aim of the park is to "reproduce Harbin's beauty of Russian classical architecture".
